

Moxa PoC Demo Page and Component Numbered Inventory

Date: 2026-07-10

Decision status: Christina reviewed the recommendations and approved proceeding with the recommended path.

1. Approved Decisions

ID	Decision	Approved direction
D01	Moxa Product Detail reuse strategy	Do not directly reuse GenScript ProductDetail.vue; build Moxa-native product detail components and reuse only primitives.
D02	Visual system	Moxa official design system overrides GenScript styling. GenScript is used as structural reference only.
D03	P1 componentization pages	Homepage, Product Category, Product Series, Product Model, Compare/Quote, Search, Contact/Distributor, AI Assistant.
D04	Backend/admin mock scope	Keep backend/admin screens as evidence/demo pages for now; do not overbuild as production components yet.
D05	iframe fallback	Use only for complex fixed interactions if SitecoreAI componentization is blocked.

2. Numbered Page List

Page ID	Page	File	Scenario	Priority	Purpose	Next
P01	Homepage	homepage.html	S1 Awareness & Orientation	Critical	Personalized hero, campaign entry, product-first navigation	P02
P02	Controller & I/O Microsite	microsite.html	S2 Solution / Campaign Exploration	High	Campaign hero, product education, lead form, shared homepage module	P03
P03	Article Page	article.html	S2 Solution / Campaign Exploration	High	SEO article, DAM metadata, FAQ, related resources	P04
P04	Video Page	video.html	S2 Solution / Campaign Exploration	Medium	Product setup video, poster, transcript, related resources	P05
P05	Product Category: Ethernet Switches	product-category-ethernet-switches.html	S3 Product Discovery	Critical	Filter panel, product families, product results, compare entry	P06
P06	Search Result Page	search.html	S3 Product Discovery	Critical	Autocomplete, facets, result groups, AI answer support	P07
P07	EDS-4008 Series Page	product-series-eds-4008.html	S4 Product Evaluation	Critical	Series hero, 360 viewer, specs/resources/models tabs, quote/follow CTA	P08
P08	EDS-4008-LV / HV Model Page	product-model-eds-4008-lv-hv.html	S4 Product Evaluation	Critical	Model gallery, LV/HV comparison, resources, AI support, quote path	P09
P09	Product Compare / Quote Flow	compare-quote.html	S4/S5 Evaluation to Conversion	Critical	Compare table, quote cart, requester confirmation, submission state	P10
P10	Contact Sales / Find Distributor	contact-distributor.html	S5 Conversion	High	Distributor finder, support route, sales form, consent state	P11
P11	AI Assistant Panel	chatbot.html	S4/S5 Assistive AI	High	Prompt chips, answer area, citations, refusal/guardrail pattern	P12
P12	Analytics Dashboard	analytics.html	S6 Optimization Loop	Medium	Campaign metrics, reports, AI insight evidence	P13

Page ID	Page	File	Scenario	Priority	Purpose	Next
P13	Customer Journey	journey.html	S6 Optimization Loop	Medium	Anonymous-to-known timeline, profile signals, consent	P14
P14	Backend / Compliance Mock	backend-compliance.html	S6 Governance	Medium	Workflow, repository search, support/contact/compliance evidence	P15
P15	Design System	design-system.html	System Reference	Critical	Moxa tokens, components, page anatomy, requirement matrix	P01

3. Primary Demo Jump Path

```
P01 Homepage
-> P02 Microsite
-> P03 Article
-> P04 Video
-> P05 Product Category
-> P06 Search
-> P07 Product Series
-> P08 Product Model
-> P09 Compare / Quote
-> P10 Contact / Distributor
-> P11 AI Assistant
-> P12 Analytics
-> P13 Customer Journey
-> P14 Backend / Compliance
-> P15 Design System
```

The new demo-map.html page contains this path as clickable links and is also linked from the header of every generated page.

4. Numbered Component List

Component ID	Component	Reuse basis	Pages	Purpose
C01	MoxaHeaderMegaMenu	Refactor from GenScript SiteNav	All pages	Logo, product-first IA, mega menu, search, region/language, contact CTA
C02	MoxaFooter	Re-skin from GenScript Footer/Sitemap	All pages	Product/resource/contact/legal links
C03	MoxaBreadcrumb	Reuse Breadcrumb	Product, article, video, search	Home to category/series/model path
C04	MoxaHeroBanner	Re-skin HeroBanner	Homepage, microsite, category, resources	Moxa imagery, clear focal point, editable copy
C05	MoxaCampaignBanner	Refactor SiteCta/Floating	Homepage, microsite	Campaign state, popup/floating state, measurable CTA
C06	MoxaCardGrid	Re-skin GridCardSection/ImageCardGrid	Homepage, microsite, article, resources	Image, label, title, copy, CTA
C07	MoxaProductFilterPanel	Refactor filters/forms	Category, search	Keyword, facets, sort, selected state
C08	MoxaProductResultCard	Refactor ProductCard	Category, products, search	Product image, specs, tags, compare, CTA

Component ID	Component	Reuse basis	Pages	Purpose
C09	MoxaProductSeriesHero	New Moxa component	EDS-4008 Series	Series title, product proof, CTA, lifecycle
C10	MoxaProductMediaGallery	New/refactor AdaptiveMedia	Series, model	360 frames, static gallery, alt text
C11	MoxaPdpTabs	Re-skin SiteTabs	Series, model, PDP	Overview, Specifications, Resources, Models
C12	MoxaSpecTable	New/refactor PriceComparisonTable	Series, model, compare	Industrial specs, model columns, difference highlights
C13	MoxaModelVariantCompare	New Moxa component	Model, compare	LV/HV comparison, power input, ports, certifications
C14	MoxaCompareDrawer	New/refactor Floating	Category, products	Selected products, max count, compare CTA
C15	MoxaQuoteCart	New/refactor RequestQuotePanel	Compare/quote, model, series	Products, accessories, quantity, requester, consent
C16	MoxaDynamicForm	Refactor DynamicForm	Contact, quote, microsite	Region, product interest, Salesforce/CRM mapping
C17	MoxaDistributorFinder	New/refactor Map/Autocomplete	Contact/distributor	Country/region, partner cards, contact route
C18	MoxaSearchBox	Refactor SiteNavSearch/Autocomplete	Header, search, homepage	Suggestions, synonyms, typo support
C19	MoxaAIAnswerBox	Refactor QAContainer	Homepage, search, product, chatbot	Prompt chips, answer, citations, refusal state
C20	MoxaResourceDownloadList	Refactor FilterableDownloadSection	Series, model, search, article	Datasheets, manuals, PDFs, videos, certifications
C21	MoxaVideoResource	Reuse VideoPlayer	Video page	Poster, transcript, chapters, related resources
C22	MoxaArticleResourceLayout	Re-skin ContentBlockPage	Article page	SEO, DAM, FAQ, sidebar, related links
C23	MoxaAnalyticsCards	Re-skin table/card patterns	Analytics, backend	Metrics, charts, report controls
C24	MoxaJourneyTimeline	Refactor Stepper/Timeline pattern	Journey page	Behavior events, profile merge, consent
C25	MoxaWorkflowStatusTable	Evidence/admin component	Backend/compliance	Workflow, versioning, audit, publication status

5. Figma Import Package

Figma import source folder:

```
/Users/christinaliu/Documents/Moxa/moxa-figma-static-pages
```

Package output:

```
/Users/christinaliu/Documents/Moxa/moxa-figma-static-pages-20260710.zip
```

Package rules:

- Each page is a self-contained HTML file.
- Shared CSS is written directly into each HTML file.
- Images are embedded into HTML as data URIs.
- The large video file is not embedded; video.html uses the poster image for static Figma import.

- demo-map.html is included as the numbered page/component index.
- README.md, this inventory MD, PDF, and audit MD are included in the package.

6. Audit Summary

Audit item	Result
Source HTML pages generated	PASS: 19
Figma static HTML pages generated	PASS: 19
Page numbering present	PASS: P01-P15 in demo-map.html and this document
Component numbering present	PASS: C01-C25 in demo-map.html and this document
Header jump to Demo Map	PASS
Local source asset references	PASS
Figma external CSS/script/image references	PASS: none found
Broken local links / hash anchors	PASS
Duplicate IDs	PASS
Invalid tab targets	PASS
Moxa brand tokens	PASS: #008787, #204a88, #ff8000
Layout rule	PASS: 1160px container
CTA and card style	PASS: squared CTAs, <=8px card radii

7. Known Note

The three latest GPT files named in the user message were not present at the specified /Users/christinaliu/Downloads/ paths during this run. The build therefore proceeds from the approved recommendation, existing Moxa page/element brief, scenario coverage storyline, existing generated pages, and current design-system audit.
